ABOUT US

OMNI ENERGY

Omni Energy is a leading provider of Engineering and Value Added Oilfield Support Services. We offer integrated environmental services, including the Distribution of Oilfield Products, Drilling Chemical Solutions, Oil Spill Response Services, and Waste Management Services.

OUR MISSION

Our Mission is to deliver comprehensive solutions for complex and large scale energy projects tailored to the needs of our clients, using the very best in technical support services towards the supply, transmission and distribution of Energy and the provision of integrated environmental services in the Oil & Gas industry.

OUR VISION

Our Vision is to be a first class provider of solutions and applications for Energy, Oil and Gas in Ghana, Africa and beyond, while maintaining an unbeatable track record for service.

OUR VALUES

We conduct our business with Honesty and Integrity, to ensure Fairness and Accountability for our clients and partners.

OUR HEALTH & SAFETY POLICY

Our chief priority is to ensure the safety and well-being of every employee and contractor who works for us. We maintain an over-arching framework to ensure the health and safety of all workers at all of our locations. Compliance is required of all personnel.

All of Omni Energy's leaders are required:

- to create an environment where we never, under any circumstances, compromise on health and safety;
- to visibly promote Omni Energy values, leadership practices and health and safety policies and principles;
- to set a culture of transparency, honestly monitoring and reporting health and safety performance;
- to recognise and reward exceptional behaviour with respect to health and safety.

Our corporate Health and Safety team is charged with the following:

- Setting performance expectations, developing over-arching policy, minimum standards, and annual plans for continuous improvement;
- Providing guidance and assurance of site-level execution of health and safety management practices;
- Monitoring and regularly communicating health and safety performance, trends and best practices.

All workers, whether Omni Energy or contract employees, are required to support the Health and Safety Programme by actively participating in all training, reporting all unsafe conditions and ensuring they and their co-workers follow all protective measures and safe work methods.
